## MODEL CAR CLUB NEWS

### MARCH / APRIL 2003

Under new management !!!!!!!!!!!!!!!

It's good to see the numbers growing on the membership side of the Club, We have a new idea which has been put forward and implemented and that is, a new member can race for 3 meetings before they have to join, this only applies to new members, not past ones and this supersedes any previous membership rules on membership.

Nice to see Keith being used in his new role! Keith has been asked to sort out a few problems which have arisen on the track already. That's what he is there for to answer any questions from the members and sort out any disputes

#### TEA HUT

It is also worth a mention that if it is raining on a race day, the food hut will be closed, be prepared to bring your own refreshments if you want to race in the rain, we are talking rain to start the day, not that which arrives during a meeting.

#### FOR SALE

I have not received anything to publish in the For Sale articles for this newsletter, so it will be carried over to the next one. If the members do not want to use it then I will abandon the idea

#### BUMPS

Some members have brought up the question of a few little bumps on the sweeper, well this is in hand and the contractors are taking a look at them, we will report back in due course.

#### SPONSORSHIP

We have asked several companies to sponsor the advertising boards along the track. They are in the process of having them made, we still have some spaces left so if you know of anyone who would be interested in having a board, ask them to get in touch with me, details on the AMCC web site.

#### NEW CARS

There are several companies launching new cars within the next few months, namely CORALLY, HPI ASSOCIATED and MUGEN which keeps every one happy building their new car, look out for them in the magazines.

#### GRASS CUTTING

The Club has a new mower, so we are looking for 2 people to take control of the grass cutting, with the new mower it will be easier to cut the grass.

We have also laid some turfs down the main straight to try to help with the stone situation.

As some of you won't be aware it was the Chairmans 50<sup>th</sup> Birthday on the 28<sup>th</sup> March so on behalf of the Club, Happy Birthday "LES " I'm sure he had a good one !

The National season is looming up so good luck to all those who take part and remember its not the winning that counts it's the taking part !!

#### MARKINGS

As you can all see the track markings have been completed by the contractors, it just leaves the club to finalise on the grid markings.

#### CARDS

All membership will be checked by Committee Members in attendance on practice or race days and those who cannot show membership will be asked to leave, .so make sure you carry it with you as proof of membership at all times !

#### GATES

Can members remember to lock all gates on leaving the site, as of late they have been left open and unlocked !!!!.

#### CAR PARK

A reminder to all drivers who practice, you must not drive your cars from the car park to the track, for safety reasons carry them to the track .

#### RUBBISH

Any vehicle found with rubbish under or around it, the driver or drivers will face a one race ban.

#### DISABLED

In future the small car park is reserved for disabled drivers, if there are none booked in then it may be used for others.

Any Disabled driver wishing to use the small car park should, when booking in, write disabled in the instruction box and then they will have a place reserved.

#### TOILETS

In future any person found smoking in the toilets will be asked to leave the site immediately, it is strictly forbidden to smoke in the toilets.!!!!!!!

#### RACE DAY

After racing has finished there will be no further practising or testing allowed, anyone caught will have a fine imposed, so be warned !!!!

Have a nice day
